PROTECTION TRIUMPHS.

Republicanism has won the opening battle of the Presidential campaign of 1892. The forces of protection and free trade have again met as they met in Ohio last fall. In Rhode Island, as in Ohio, the cause of American industry and honest money has triumphed. The men who were working in the interest of foreign manufacturers have been defeated. The men who have upheld the rights of American labor have been sustained. The Democrats boldly proclaimed the contest the beginning of the great national conflict. The Republicans accepted the gage of battle and appealed to the voters of the state to declare whether they were for America or Great Britain; whether Rhode Island would maintain or repudiate the policy that has made her workers prosperous and her domain a centre of remunerative industry. Rhode Island has replied. Her answer will ring from Maine to California. It will be heard in free trade England. Its significance will be noted in every civilized land. The great little state indignantly repels her calumniators, condemns the advocates of free trade and takes her rightful place in the front rank of the Republican column.

The Republicans have carried the Legislature, insured the return of Aldrich to the United States Senate and elected their state ticket by a majority. Every Republican in the nation has reason to rejoice over the result. Yesterday's election makes it absolutely certain that Rhode Island will cast her electoral vote for the Republican Presidential candidate next November.—N. Y. Press.

THE charter elections in the western states show strong Republican gains everywhere. This is a Republican year. Neither Hill nor Cleveland are "in it," so to speak.

WHEN Assistant Kicker Betteridge asked in Council last night "If these gentlemen are acting for their constituents, or as servants of the company," Grand Supreme Grand Kicker Gable laughed and clapped his hands in glee. As such questions seem to so highly please the Supreme Grand Kicker we will crack another for his benefit. When Gable first entered Council, three years ago, he was bubbling over with determination to fulfill his duty to his constituents and at once commenced a bitter warfare to have the scraper line of the P. & R. C. & I. Co. removed. He obliged Council to have the matter referred to a committee to see what could be done towards having the line abolished and, if we are not mistaken, Mr. Gable was a member of that committee. That committee has never reported and the scraper line is still on the streets. Query—Was the anti-scraper line agitation dropped by the desire of Mr. Gable's constituents, or by desire of the P. & R. C. & I. Co., under which Mr. Gable holds a position of mine boss?

A VICTORY for the Democratic candidates in Rhode Island to-day would be an overwhelming Republican defeat that would mean great things for the Democracy in November. On the other hand, should the Republicans be successful, they have simply saved themselves from early destruction without having achieved a victory.—Evening Chronicle. With our sprightly Democratic contemporary it is six of one and half a dozen of the other. We are content with the victory in Rhode Island and it is the first gun of the Presidential campaign. That little state can safely be counted in the Republican column.

Pure and Wholesome Quality. Commends to public approval the California liquid laxative remedy, Syrup of Figs. It is pleasant to the taste and by acting gently on the kidneys, liver and bowels to cleanse the system effectually, it promotes the health and comfort of all who use it, and with millions it is the best and only remedy.

Best photographs and crayons at Dabby's. The appearance of the car gave many people the first impression of what an electric road really is. The trip was a highly successful one and the people were unanimous in their praise of the road and its equipment. The cars are beauties and they afford a most enjoyable ride. The road will be opened for traffic between this town and Girardville to-morrow morning. The HERALD to-day printed cards announcing the rates of fare and they will be put in conspicuous places at once. An advertisement setting forth the rates of fare will be found in another column of this paper. Judge Sadler was interviewed this morning concerning his views of Council's action last night. The Judge said, "We intend to obey the law at all times and we will not fight. No one can get me into a fight. I am not a fighting man. I will try to please the people and when Council puts its foot down, why I will submit. It will be unnecessary for Council to get out an injunction, as I am now having the tracks filled in the best way possible and as soon as that work is done the gangs will be taken off the streets. I will go to Ashland and Mahanoy City to-day and make arrangements to begin work at one of the places on Monday. I will do no more new track work in town until we can come to some settlement of this question, but we will commence to run cars to-morrow. I met some of the Councilmen and their Solicitor yesterday morning and agreed to sign an agreement with them. Notes were taken of what we were to agree to and the Solicitor left me to draw up the document, but later in the day the Councilmen informed me that the agreement could not be made. I want to be agreeable in my dealings with the borough and have everything as harmonious as possible, and until the time arrives when we can go ahead in that way I will do no more new work. I have sent to Reading for an expert and expect him here in a day or two to see what can be done towards paving."

The electric cars were run down Main street to-day as far as the corner of Main and Centre streets. This will be the terminus until Judge Sadler feels justified in going ahead with new work.

ELECTRIC CARS RUN INTO TOWN.

CHEERS GREET THE FIRST CAR ON ITS ARRIVAL.

A HIGHLY SATISFACTORY TRIP.

Prominent Gentlemen of Other Towns Mingle With the Passengers on the First Trip—It Was an Unexpected Event—Other Electric Matters.

THE first street car to run over the electric railway from the power house at Bappanock into this town was started yesterday afternoon and landed its enthusiastic passengers at the corner of Main and Lloyd streets at 5 p. m.

Among the passengers were Judge Sadler, of Carlisle, Hon. D. D. Phillips, of Gordon, Hon. Elias Davis, of Broad Mountain, McHenry Wilhelm, Esq., and W. C. Bright, of Ashland, John F. Finney, H. C. Boyer, W. J. Watkins, J. J. Dougherty, J. J. Kelly, Councilman Phalen, Adam Mori, W. J. Evans, Hon. T. J. Higgins, Chief Burgess Smith, H. H. Zulick, George Erick and several others.

The car was crowded as it ran up Coal street at a lively speed amid the cheers and enthusiastic cries of the surprised people who thronged the street. The trip was unexpected, as it was not planned until late in the afternoon, when Judge Sadler said he thought he would go down and run a car up to see how she would run on the half finished road.

The appearance of the car gave many people the first impression of what an electric road really is.

The trip was a highly successful one and the people were unanimous in their praise of the road and its equipment. The cars are beauties and they afford a most enjoyable ride.

THE FIRST GUN.

"Little Rhody" Speaks in no Uncertain Tones for the Republican Party.

Rhode Island has given the Republican candidates for state offices a majority and the Legislature is Republican on joint ballot without requiring a new election to decide.

Hill and Cleveland were not "in it."

COUNCIL'S APPROPRIATION.

Estimates of Receipts and Expenditures for the Ensuing Year. The Borough Council last night approved of the following appropriations:

The Third District.

Delegates to the Third Legislative District Convention met at Tamques this morning. Charles Welby was made chairman and Robert Harris, of the Tamques Courier, and Charles Allen, secretary, John Kershner, of Tuscarora, was nominated for the Legislature. Thomas Job, of Barnsville, was elected delegate to the State Convention, with James DeLong, of McKeesburg, as alternate. Resolutions instructing the delegate to support Judge Sadler for the Supreme Court Judgeship were adopted.

Distinguished Visitors.

Yesterday, in company with P. J. Ferguson, Assistant General Manager Swigard, of the Philadelphia & Reading Railroad, General Superintendent Lawler, Division Engineer Ward, and H. S. Goodwin, J. I. and A. P. Blakslee, new officials of the Reading railroad, paid a brief visit to town and then proceeded down the valley to inspect the Lehigh and Reading workings. It is expected that important developments will be made in a few days.

A Good Step.

R. A. Davenport last night made application to Council, in behalf of several property owners, for permission to run a sewer on West street, north and south of Centre, and on West Centre street, the sewer to be from 16 to 20 inches in diameter. The street committee is considering the matter.

Arm Broken.

The young daughter of James Richards fell at the corner of Oak and Jardin streets recently and broke one of her arms. The matter was referred to a Council committee last night, as it is claimed the accident was due to an improper condition of the street crossing.

PERSONAL.

Mrs. Joe Simpson, of Port Carbon, is the guest of Mrs. John A. Lewis.

John S. Klein, representing Molten & Munch, paper dealers of Philadelphia, was in town yesterday.

THE KICKERS TAKE A STAND.

THE BOROUGH SOLICITOR INSTRUCTED TO STOP WORK.

AFTER A VERY WARM DEBATE.

What Judge Sadler Says of the Situation. The Cars Continued Running into Town To-day—To-morrow the Road Will be Opened for Traffic.

THE hands of the clock in the Borough Council chamber were fast traveling to the figures that indicate the hour of midnight when the members of Council concluded to adjourn and go home. The meeting was a lengthy one, and exciting in many respects. The main topic of discussion was the electric railway.

The Ancient and Illustrious Order of Kickers were out in force and they stuck to each other as if glued together in the work of nipping and tearing at the representatives of the railway company and the Councilmen who thought more time should be given the company.

Assistant Grand Kicker Betteridge opened the ball by stating that considerable complaint had been made against the construction of the electric railway. The ordinance, he said, required that the road should be paved under the supervision of the committee on roads and highways and the paving must be done as the construction proceeds.

Mr. Holman thought that if the electric railway work continued as it went the past three days everything would be all right in a very short time.

Grand Supreme Kicker Gable moved that Council instruct the Solicitor to have all work stopped on the railroad until the company complies with the ordinance. Mr. Stout seconded the motion.

J. R. Coyle, Esq., arose and said, "I trust before Council takes action in this matter, they will weigh it carefully and reasonably. This road has been down in one part of town for a period of four or five weeks, during which time no reasonable man could say anything could be done to it. It is absolutely impossible for this company to comply with the provisions of that ordinance as interpreted by Mr. Gable. We all know that before that road can be paved or lined it will be necessary to operate it for at least a couple of weeks, so that the weak spots may be shown, and this must be done before the first particle of pavement is laid. If we pave it now, as a whole, or foot by foot, or yard by yard, as some Councilmen wish, before the road has had a chance to settle, the result would be that the moment the cars would pass over it it would go down in one place and up in another and shift. This company intends to live up to the very word and spirit of that ordinance by paving these streets and putting it in proper shape; but it cannot be done in a day, or a week. The road must settle first."

Mr. Coyle also stated that by a mistaken notion of the former superintendent of the road nearly \$500 had been expended for stringers to put under the rails, but a recent experiment had shown that paving cannot be done if the stringers are used. "Mr. Sadler, the president," said he, "is willing to replace the 'T' rail by July 1st, next, with an 80 pound rail, either flat or 'T,' as Council may desire. This 80-pound rail is of sufficient height to admit paving. To stop the operation of the road for three months. If Council would refrain from interfering and give the company time to secure the new rail the road could be earning something in the meantime."

When Mr. Coyle closed his remarks Mr. Scheffy moved an amendment to the motion that the company be allowed to go ahead. He claimed that Council would have a remedy even after the completion of the road. Mr. Phalen seconded the amendment.

Assistant Kicker Betteridge started up a hornet's nest by saying, "I would like to ask if those gentlemen are talking for their constituents, or as servants of the company?"

Messrs. Gallagher, Holman, Dovers, Hopkins and Sobeloff were on their feet at once, but Mr. Coyle secured recognition and said that no member of Council had received a cent, either directly or indirectly from the company for their votes. "No member of this Council has been bribed by the company," he continued, "and no Councilman has taken a bribe. But the gentleman who sat down did."

Assistant Kicker James rapped for order and Mr. Coyle was not allowed to say what he intended.

Assistant Kicker Betteridge arose and tried to explain that he did not mean anything wrong, but those who arose when he made the remark answered in chorus that they could understand English. Mr. Scheffy insisted upon his amend-

ment, but James refused to recognize it and the original motion was carried by a vote of 8 to 7.

A BAD PLACE.

Unless Its Advertisements Belle It—Is It Our Former Townsman?

There is a "hotel" opposite the Hazleton market works on Hemlock street that the police don't know anything about, yet it advertises in the most unblushing manner. Cards are handed around with the name of the proprietor, A. B. R. Lathaw printed of which are enough to convict that alphabetical individual of keeping a free and easy.

The police didn't know anything about the place, but of course that would be expecting too much. Whoever or what ver Lathaw is, he or she ought to be taught that to publicly flaunt their place in the eyes of the public meant jail.

Advertising is all right in its place, but it is paid to bad use in this case. The cards ought to be easy for the police to see as they were distributed prominently. A spew of activity wouldn't be a bad thing for the police force since their places are in doubt just now.—Hazleton Sentinel. This must be our A. B. R. L., recently released from our county jail, at least these were his initials.

Newsy Topics.

"Old Gallagher's Money" is having a great run in the new papers. It is a story. Hazleton is seeking a silk mill. E. P. Kline has offered a site on which to put the establishment. When they start to build there won't be any one foolish enough to get out an injunction.

Mrs. Mary Shaloo, a Hungarian woman of Cleveland, Ohio, came to town to-day looking for her husband who eloped with a hired girl who lived in a tavern next door. She went from here to Shenandoah and says she will follow him to the end of the earth. She is probably a woman of grateful instincts and wants to personally thank the old gent for his kindness in relieving her of a burden.—Hazleton Sentinel.

Set Him Right.

Geo. Augustus Sala, the well known English writer, on his last Australian trip, wrote as follows to The London Daily Telegraph: "I especially have a pleasant remembrance of the ship's doctor—a very experienced maritime medicine, indeed, who tended me most kindly during a horrible spell of bronchitis and spasmodic asthma, provoked by the sea fog which had swooped down on us just after we left San Francisco. But the doctor's prescriptions and the increasing warmth of the temperature as we neared the Tropics and, in particular, a couple of Alcock's Porus Plasters clasped on—one on the chest and another between the shoulder blades—soon set me right."

Take the Home Band.

It is understood that the local lodges of the I. O. O. F. propose to go out of town for a band to lead them in the parade at Hazleton on Old Fellows' Day. There is a strong sentiment among members of the Order against such a step and if the intention is carried out it would undoubtedly cause displeasure. We have in town as good a band, so far as talent goes, as any the committee can secure outside, and for appearances none certainly can excel it.

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for consumption, Coughs and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We would not make this offer did we not know that Dr. King's New Discovery would be relied on. It never disappoints. Trial bottles free at C. H. Hagenbuch's drug store. Large size 50c. and \$1.00.

Notice to the Public.

I hereby notify the public that I have taken the general agency for Schuylkill county for the Allan, American, Anchor, Baltic, Canard, Dominion, Fabre, Italian, French, Guion, Hamburg-American Packet Company, Inman, Red Star, North German Lloyd, Netherlands, Union and White Star lines, and that I am enabled to sell tickets at less rates than any other agent.

For State Senator.

John Daley, of Silver Brook, is to seek the Republican nomination for State Senator from the Thirtieth (Schuylkill) Senatorial district. He has always been a good Republican, and consequently a respected citizen.—Hazleton Sentinel. The 30th Senatorial district is not electing a Senator this year. Time enough two years hence.
